

### Initial checkout

```
svn --username=<username>  
co https://jubilee.q-chem.com/svnroot/qchem/trunk  
<qchem-directory-name>
```

### TIPS

**-Always make sure everything is in sync before merging and after branch switch**

```
svn update  
svn status
```

**-Change branch name**

```
svn move ^/branches/name1 ^/branches/  
name2
```

**-Add new files before committing**

```
svn add file.F
```

**-Solving possible conflicts**

```
svn resolve --accept [postpone|base|mine-  
full|theirs-full|edit|launch]
```

```
svn remove --force fileInConflict
```

```
svn resolve --accept=FileInConflict
```
